

DEFENDIT SERVICES, INC.

CMMC - SECURE, COMPLIANT & MISSION READY WITH DEFENDIT SERVICES

Why Partner with Defend IT Services?

DefendIT Services is a security-first Managed Security Services Provider (MSSP) uniquely positioned to support organizations pursuing CMMC 2.0 compliance while strengthening day-to-day IT operations. Our team combines deep expertise in NIST 800-171, CMMC Level 2 requirements, and DoD contracting with enterprise-grade cybersecurity and managed IT capabilities tailored for small and mid-sized businesses. By seamlessly integrating CMMC compliance support with proactive managed IT services, DefendIT Services delivers a secure, efficient, and resilient technology environment—empowering your organization to focus on mission success while we manage the complexities of compliance and cybersecurity.

WHAT SETS US APART

PROVEN PERFORMANCE RECORD

Security-First Expertise Backed by DoD Experience

Led by a retired USAF Cyber Operations Officer with deep familiarity in NIST 800-171, CMMC Level 2, and DoD contracting requirements, DefendIT Services provides practical, mission-oriented guidance that aligns compliance efforts with real-world federal expectations.

Integrated Compliance + Managed IT Approach

Unlike firms that treat CMMC as a standalone project, we combine ongoing managed IT, cybersecurity operations, and compliance management into a single, cohesive service—ensuring continuous readiness, reduced risk, and a smoother path through assessment and long-term maintenance.

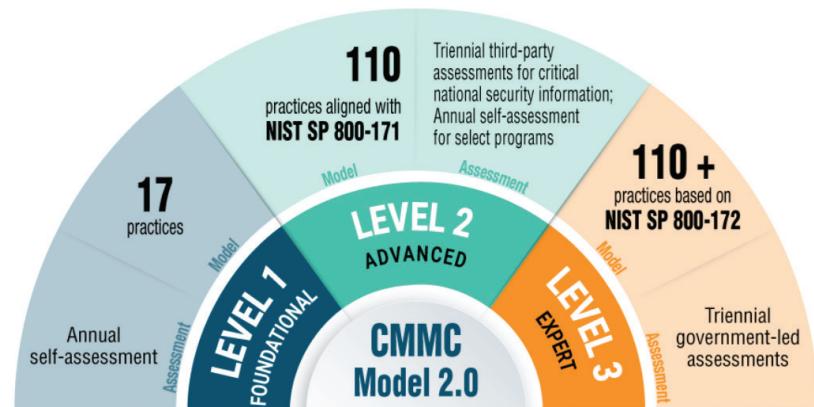

Compliance Ready Infrastructure

Our operations align with NIST 800 171, DFARS, and CMMC frameworks—ensuring secure, audit ready subcontractor support designed for the DoD and federal environment.

AREAS OF EXPERTISE

- CMMC 2.0 & NIST 800-171 Compliance
- Managed Security Services Provider (MSSP)
- Managed IT Services & Helpdesk
- Cloud & Microsoft 365 Security
- Vulnerability Management & Risk Reduction
- Defense-Focused Technical Leadership

READY TO AUGMENT YOUR TEAM?

DefendIT Services provides expert CMMC readiness support—from gap analysis and NIST 800-171 alignment to assessment preparation and continuous monitoring. Strengthen compliance, reduce risk, and position your company for growth across the DoD landscape.
